

Amigo 7Y User Guide

Contents

Your Amigo 7Y is supplied with the correct power adapter for your region. Depending on the choices made by your service provider, your box may also contain the optional accessories shown below.

Optional accessories

Remote control and batteries

HDMI cable

Ethernet cable

Overview of the Amigo 7Y

1. DC power input 12V/1A PSU
2. HDMI port
3. Ethernet port
4. 2X USB port.
(DO NOT use this port to charge USB devices)
5. MicroSD card

1. Connecting the Amigo 7Y to a TV

Warning! Before connecting or disconnecting the Amigo 7Y to your TV using any kind of cable, first switch off the Amigo 7Y, the TV and all other devices connected to it (amplifiers etc.) and disconnect them from the mains electrical supply.

Please connect the audio and video produced by the Amigo 7Y to your TV by connecting an HDMI cable from the HDMI output of the Amigo 7Y to the HDMI input of your TV.

Connecting your television directly to the audio/video output of your Set Top Box will assure a more vivid picture and enhance your viewing enjoyment.

Connecting via Wi-Fi

The Amigo 7Y features internal dual band Wi-Fi. Please contact your service provider for detailed instructions about configuring the wireless network.

2. Connecting the Amigo 7Y to an A/V amplifier

Connect an HDMI cable to the HDMI output of the Amigo 7Y and to the HDMI input of your A/V amplifier or home cinema system.

3. Connecting the Amigo 7Y to the power supply

Warning! The Amigo 7Y must only be used with the power adapter provided with the product. Ensure the power adapter supplied is the correct one for your region. If you are unsure, contact your service provider. Connect the power adapter to the DC power input of the Amigo 7Y, then insert the power adapter plug into the mains supply.

Declaration of Conformity

Hereby, **Amino Communications Ltd.** declares that the radio equipment type **IP Digital set-top box** is in compliance with Directive 2014/53/EU. The full text of the EU Declaration of Conformity is available upon request.

FCC statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation of the device.

IMPORTANT NOTE:

RF exposure warning statement:

1. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimetres between the radiator and your body.

Operating information

Operating temperature: 5 °C to 40 °C (40 °F to 104 °F)
Frequency bands and maximum powers:

Wireless Frequency range and RF Effective Isotropic Radiated Power:

Bluetooth: 2402MHz – 2480MHz: EIRP < 4 dBm
2.4G Wi-Fi: 2412MHz – 2472MHz: EIRP < 20 dBm
5G Wi-Fi: 5150–5250MHz: EIRP < 23dBm
5250–5350MHz: EIRP < 20dBm
5470–5725MHz: EIRP < 20dBm
5725–5850MHz: EIRP < 14dBm

The WLAN function for this device is restricted to indoor use only when operating in the 5150 to 5350 MHz frequency range

Important - Safety instructions

Read these instructions carefully. Note all warnings and keep this leaflet or future reference.

The product contains no user-serviceable parts. Refer all servicing to qualified service personnel.

Handle the product with care and do not attempt to dismantle it.

Do not expose the product or its accessories to any liquids, rain or moisture.

The product will become warm during operation. Do not locate the product near a heat source and do not block ventilation holes. Allow at least 10 cm (4") space around the product for air circulation.

Do not put the product in locations where it may be subject to physical shock, vibration or where it may fall over.

Do not place the product on soft furnishings or carpets.

Only use the power supply provided by the manufacturer.

The use of any other type of power supply may be dangerous and may invalidate any approval or warranty. If the power supply is not suitable for your region, please contact the service provider that supplied it.

Protect the power supply cord from damage.

To disconnect the product from mains electricity, remove the power supply cord.

Disconnect the product from the mains supply during electrical storms, or if it is to be left unused for long periods of time.

Disconnect the product before cleaning. Use only a dry cloth.

The product should only be used with attachments and accessories specified by the product manufacturer.

The product is for indoor use only.
